

Protecting Water Quality

A field guide to erosion, sediment and stormwater
best management practices for development sites
in Missouri and Kansas

Protecting Water Quality

A field guide to erosion, sediment and
stormwater best management practices
for development sites in Missouri and Kansas

Prepared by:

*The St. Charles
County Soil &
Water
Conservation
District,
St. Charles,
Missouri,
& the
Dam and
Reservoir Safety
Program,
Division of
Geology and
Land Survey,
Missouri
Department
of Natural
Resources,
Rolla,
Missouri*

Revised by:

*The Mid America
Association of
Conservation
Districts
(MAACD),
Kansas City,
Missouri,
to include
Kansas and
Missouri*

Publication

Original Printing: November 1995

Second Printing: September 1998

Reprint: November 1999

The original publication of this manual was funded in part by the Missouri Department of Natural Resources (DNR), administered by the Water Pollution Control Program, Division of Environmental Quality. Funds for the subgrant award were made available from the United States Environmental Protection Agency (EPA) under authority of Section 319 of the Clean Water Act.

**Missouri
Department
of
Natural
Resources**

The original manual was a cooperative project of the St. Charles County Soil and Water Conservation District and the Dam and Reservoir Safety Program, Division of Geology and Land Survey, Missouri Department of Natural Resources.

The revised manual for the second printing was a cooperative project of the above and the Mid America Association of Conservation Districts in Kansas City, Missouri. The publication of the revised manual was funded by EPA Region VII through the Missouri DNR under Section 319 of the Clean Water Act.

Disclaimer

This manual is not intended to be a guide to design plans and specifications, but a source of information about erosion, sediment and stormwater control best management practices. The contents should not be interpreted as necessarily representing the policies or recommendations of other referenced agencies or organizations.

This is not a complete list of urban-applicable practices. For comments or information, contact your closest Soil & Water Conservation District office.

Preface

Purpose The purpose of this field manual is to provide developers, contractors, site managers and inspectors with a guide to the installation and maintenance of construction site erosion, sediment and stormwater control practices in Kansas and Missouri. Proper installation and maintenance of these structural and biological practices will protect our valuable water resources from harmful pollutants.

This manual can also be a useful reference document for engineers, planners, public officials and others involved in land disturbance activities, although it is not intended as a design manual. For detailed design guidance, please refer to the Illinois Urban Manual, a Technical Manual Designed for Urban Ecosystem Protection and Enhancement, 1995. Design guidance from the Illinois Urban Manual is currently accepted by the Natural Resources Conservation Service in Illinois and Missouri, by other local entities in Missouri and by the Mid America Regional Council in the Kansas City region. The Illinois Urban Manual can be accessed via the internet by contacting the Illinois NRCS homepage at il.nrcs.usda.gov. Hard copies of the manual can be obtained by contacting Curtis Janssen or Emery Wiens at 785-295-2534 in Kansas or by contacting Kent Sims, Urban Conservationist, at 630-505-7808 in Naperville, Illinois.

Original Project Team The St. Charles County Soil and Water Conservation District
Don Hamer, Project Manager and Karen Babcock Grimes, Editor; and

The Dam and Reservoir Safety Program, Division of Geology and Land Survey, Missouri Department of Natural Resources
James L. Alexander, P.E., Chief Engineer; Robert A. Clay, P.E., Civil Engineer; and Jordan F. Ott, E.I.T., Dam Safety Engineer

Primary Authors James L. Alexander, P.E., Chief Engineer; Robert A. Clay, P.E., Civil Engineer; and Jordan F. Ott, E.I.T., Dam Safety Engineer

Illustrations Robert A. Clay and Jordan F. Ott, except where otherwise noted.

Revision Team Sponsored by the Mid America Association of Conservation Districts (MAACD)
Doug Gahn, Project Leader, Urban Resource Conservationist, USDA Natural Resources Conservation Service, Kansas City, Kansas; and Don Baker, Committee Chairman, District Conservationist, USDA Natural Resources Conservation Service, Blue Springs, Missouri.

Acknowledgements

Contributing Authors

The project team would like to thank the following individuals for their contributions to the manual's contents, specifically the sections on temporary and permanent seeding, sodding and soil bioengineering for slope protection. Their expertise and experience with vegetation establishment, bioengineering practices and development sites has been invaluable to the manual's publication.

Matthew Herring, Agronomy/Natural Resources Specialist
University Extension, Franklin County, Missouri

Richard Hoormann, Agronomist
Farmland Industries, formerly University Extension,
St. Charles County, Missouri

Scott Killpack, Agronomy/Natural Resources Specialist
University Extension, St. Charles County, Missouri (revision)

Neil F. Pellmann, P.E., Agricultural Engineer
USDA Natural Resources Conservation Service, Columbia,
Missouri

Denny Schrock, Extension Associate in Horticulture
University Extension, Columbia, Missouri

Brian Swenty, Ph.D., P.E.
Department of Mechanical and Civil Engineering, Univer-
sity of Evansville, Evansville, Indiana

Tim Smith, Urban Conservationist, Greene County Planning &
Zoning, Greene County, Missouri

Technical Revision Team

C. L. Maurer, Landscape Architect
Landplan Engineers, Lawrence, Kansas

Emery Wiens, Engineer
USDA Natural Resources Conservation Service, Topeka, Kansas

Dennis Brinkman, District Conservationist
USDA Natural Resources Conservation Service, Topeka, Kansas

Rod Egberts, Resource Conservationist
USDA Natural Resources Conservation Service, Salina, Kansas

Ivan Thiele, Area Engineer
USDA Natural Resources Conservation Service, St. Joseph,
Missouri

Terry Breyfogle, District Conservationist
USDA Natural Resources Conservation Service, Platte City,
Missouri

Jerry Bohannon
American Excelsior Company, Earth City, Missouri
John Warren, CPESC
ASP Enterprises, Inc., Kansas City, Missouri
Dave Pendleton
American Excelsior Company, North Kansas City, Missouri

Photographs We would also like to thank the photographers who ranged throughout the state to take photographs of the practices.

Frank L. Gordon, District Conservationist
Natural Resources Conservation Service, Columbia
Becky Holland, Earth Team Volunteer
Natural Resources Conservation Service, Kansas City
Norman R. Klopfenstein, State Information Officer
Natural Resources Conservation Service, Columbia
Charles E. Rahm, Public Affairs Specialist
Natural Resources Conservation Service, Columbia
Deirdre K. Vest, Resource Conservationist
Natural Resources Conservation Service, Ozark

Advice The project team would like to thank the following individuals for their valuable contributions to this project. The quality of this manual has been greatly enhanced by their advice, suggested changes, additions and overall assistance:

**The Project
Advisory
Committee** Rich Francis, BAX Engineering & Homebuilders Association of
Greater St. Louis
Jim Gigliotti, Development Consultants, Inc.
Al Hicks, J. H. Berra Construction Co., Inc.
Leonard Kiem, The Jones Company
Jeff McKay, A.S.P. Enterprises, Inc.
Tim Myers, City of St. Peters, Engineering
Joe R. Nichols & Shelby Peters, St. Charles County Highway
Department
Bill Seffens, W. E. Seffens & Associates
Jerry Thacker & Craig Moske, Soil Consultants, Inc.

Review Significant technical and editorial contributions were provided by the following persons and their staff members during the review process:

USDA Natural Resources Conservation Service Renee Cook, District Conservationist, St. Charles Field Office
Dennis Alexander, Area Conservationist, Washington, Missouri
Hugh Curry, P.E., State Conservation Engineer
Neil Pellmann, P.E., Agricultural Engineer
John McCarthy, Conservation Agronomist
Ross Braun, Resource Conservationist
Clifford Baumer, P.E., Environmental Engineer
Douglas Wallace, Forester
Bruce Thompson, State Soil Scientist
Donald Williams, Geologist

University Extension of Missouri Jerry Carpenter, State Specialist, Water Quality
Donald Pfof, Agricultural Engineer
Dr. Allen Thompson, Agricultural Engineer

Missouri Department of Natural Resources Division of Environmental Quality:
Ralph Lemongelli, Engineering
Connie Orr Patterson, Public Information
Linda Vogt, Permitting
Ruth Wallace, Environmental Specialist

Division of Geology and Land Survey:
Steve McIntosh, M.S., Water Resources Program
Ira R. Satterfield, Geological Survey Program
Dr. James A. Williams, State Geologist

Missouri Department of Conservation Dan Crigler, Wildlife Management Biologist
Rob Emmett, Urban Forester
Delbert M. Lobb, Streams Habitat Specialist
Brian L. Todd, Streams Program Coordinator

From the Private and Public Sectors Hobie D. Crane, P.E., Larkin Associates
Frank E. Janson, P.E., Metropolitan St. Louis Sewer District
Bill Seffens, W. E. Seffens and Associates
Tim Smith, P.E., Greene County Resource Management Department
Jerry Thacker, Manager, Soil Consultants Inc.
Woodward - Clyde Consultants (Revision and update)

For Chapters 1 to 4, printed with permission from:

Indiana Department of Natural Resources, Division of Soil Conservation, 402 Washington Street, Room W-265, Indianapolis, Indiana 46204-2748;

Minnesota Pollution Control Agency from its publication, Protecting Water Quality in Urban Areas. This publication was produced by the Minnesota Pollution Control Agency, Water Quality Division, with funding from the Legislative Commission on Minnesota Resources, the Soil Conservation Service and the Environmental Protection Agency; and

North Carolina Erosion and Sediment Control Field Manual, 1991. A cooperative effort of the North Carolina Department of Environment, Health and Natural Resources, and the North Carolina Cooperative Extension Service, supported by the North Carolina Sedimentation Control Commission. North Carolina Department of Environment, Health and Natural Resources, Division of Land Resources - Land Quality Section, Raleigh, North Carolina.

Missouri
Department of
Natural
Resources

Land Reclamation Program, Division of Environmental Quality,
Gene Noe, Environmental Engineer

And, finally Thanks to the St. Charles County Soil & Water Conservation District's Board of Supervisors for their support in making this project possible; to the USDA Natural Resources Conservation Service (NRCS) which provided office space, equipment and vehicles towards the project; and to the following district & NRCS staff members who scouted for photo opportunities: Don Baker, Blue Springs; Bill Bohnert, Blue Springs; Terry Breyfogle, Platte City; Frank Gordon, Columbia; Gary Van De Velde, Jefferson City; and Deirdre Vest, Ozark, Missouri; and also to Shane Wade, Jefferson City Public Works Department, for scouting.

Jim Alexander
Bob Clay
Karen Grimes
Don Hamer
Jordon Ott

Thanks to the Mid America Association of Conservation Districts' Board of Supervisors for their sponsorship of the revision to include Kansas; to the USDA Natural Resources Conservation Service (NRCS) - Kansas and Missouri for their support of the project; and to the Mid America Regional Council (MARC) of Kansas City, Missouri, which provided office and meeting space for the revision committee.

Don Baker
Doug Gahn
